**DETAILED ACTION**

1. This office action is in response to application 10/722,346 and response under 37 C.F.R. 1.111 filed on 5/8/2006. Claims 2-20 remain pending in the application.

**EXAMINER'S STATEMENT AS TO THE REASONS FOR ALLOWANCE**

2. A certified translation of the priority document has been filed and recorded in the USPTO in order to perfect the claim of priority. Therefore, Pack reference (US 2004/0133369) does not constitute prior art. The rejection has been withdrawn and claims 2-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: as to claim 12, the prior art of record does not teach or fairly suggest a method of inspecting a photomask for a semiconductor integrated circuit formed based on drawing patter data comprising following steps of classifying a drawing pattern of the semiconductor integrated circuit into a plurality of ranks in accordance with a reference depending on a feature of the drawing pattern and extracting the classified drawing pattern; determining inspecting accuracy for each of the ranks; and deciding quality of the photomask depending on whether the determined inspecting accuracy is satisfied for each drawing pattern thus extracted, wherein the deciding step servers to change an accuracy condition depending on an increase or decrease in a pattern width.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
